

Promoting the life sciences in the 21st century

# Student membership

Set your sights high

# Student membership

If you are studying biology – or a related subject – at school, college, or university, then becoming a member of the Society of Biology offers significant benefits...

## Stand out from the crowd

- Membership demonstrates a commitment to being a professional biologist.
- When you graduate you can use the distinguished post-nominal letters AMSB (Associate Member of the Society of Biology) after your name.

## Stay ahead of the field

- Your complementary subscription to our peer-reviewed and citation-listed journal *Biologist* will keep you up to date with what's happening at the forefront of biology.
- Our monthly e-newsletter will keep you informed of the latest news from the Society of Biology, including details of exciting new member services.

## Develop your professional contacts

- All undergraduate and post-graduate students should aim to network with professionals working in their chosen field. Membership of the Society of Biology gives you access to a diverse network of professional biologists.
- Contact other members online in the members' area of our website or network with biologists in your area through our exciting local events calendar.

## Research your future career

Take a look at our website to:

- find out about the career opportunities open to you
- apply for jobs using our free online Jobs Board
- find out what you should be including on your CV

*Be part of an organisation that includes some of the world's leading bioscientists.*

## Exclusive benefits

Members are eligible for up to 20% discount on biology titles from the UK's leading academic publishers. Check our website for details of other special offers.

# How do I join?

Joining is simple and costs just £23 for a year. Please complete this form and return to our freepost address.

## 1. Personal Details

Title:..... Forename:..... Surname:.....  
Male  Female  Date of birth:..... Nationality:.....
